Abstract preparation for the ISNTT 2024

First A. Author [1]**, Second B. Author** [1,2] **and Third C. Author** [2]

[1] *Affiliation 1*
[2] *Affiliation 2*

In this document, we present guidelines for the preparation of abstracts for the International School and Symposium on Nanodevices and quanTum Technologies (ISNTT 2024), to be held in Atsugi, Japan, on 2-6 December 2024. The abstracts provided by the participants will be directly inserted in the abstract book.

The maximum length of the abstract is one page, including tables, figures and references. The abstract should be in A4 format, typeset in 12pt font (Roman or equivalent, or the default LaTeX font). Margins of 25 mm must be left blank around the text (the text area, including title, references, graphics etc., is 160 mm by 247 mm. Please do not give any changes to the margins.). When preparing the abstract in LaTeX, use the standard class with the size definitions as in the template provided on the symposium web page.

Please follow the templates (Microsoft Word or LaTeX files available on the symposium web page) for the structure of the abstract, formatting its elements (including capitalizing the title), spacing between them etc. Use superscripts for relating authors to multiple affiliations.

Figures can be included in the abstract, as demonstrated below. Please do not increase the resolution beyond the reasonable level. Format the references [1,2] as shown below.

International School and Symposium on Nanodevices and quanTum Technologies

You must convert your abstract to the PDF format before submission. The resulting file size should not exceed 5 MB. Only PDF file is acceptable for abstract submission and other formats (such as Word, LaTeX, etc) are unacceptable.
